1.3 : How to Register:

The registration of athletes, trainers and officials (judges & referees) for the 2023 World Youth Championship must be made directly to the Fédération Internationale de Savate:

fisavate.inscription@gmail.com

1.3.1. Nominative Inscription of athletes **before Friday 14th April 2023**

For the World Youth Championships 2023, the entry forms must be returned to FISav **before Friday 14th April 2023**. After this date, a country will no longer be able to register athletes for the 2023 World Youth Championships.

For ATHLETES: Nominative registration is valid only if it is accompanied by the FISav registration fee, ie 20 euros per registered athlete.

Each country must return the completed nominative entry forms to FISav, with the **full names of the athletes, and their dates of birth**. This nominative registration form **must be signed by the President** of the national organisation or his representative. Without this nominative confirmation of athletes, the country cannot participate in the 2023 World Youth Championship.

By registering an athlete for this competition, the national body of Savate, member of the FISav certifies, under its sole responsibility, that this athlete fulfils all the conditions: medical, age, weight, sex and nationality, provided by the regulations of FISav and this specific regulation.

For the OFFICIALS AND COACHES: These entry forms, **signed by the President**, must give **the full names of each official and coach** who will accompany the athletes, to make the official delegation for the country. Any changes of officials before the competition must be declared to FISav.

ATTENTION : In these rules, the word « **official** » applies **only** to persons with a function as judge, referee or DO in this competition.

Following this, FISav can inform the organiser of the total number of athletes, officials and coaches who will participate in the World Youth Championships.

1.3.2. Attention: Delays for VISAS:

The dates above do not take into account the delays, variable according to the countries, to obtain visas in the different participating countries.

If these delays are long for certain countries, they have to anticipate it and send the names of the participants to FISav early enough in order to take into account these particular delays. As soon as FISav knows with certainty the names of the people of the delegation, the Organizer will be able to send the invitations for the visas.

1.3.4. Attention : Forfeit (total or partial) by a country that has registered

If the withdrawal, of part or all of a delegation which is officially registered, is without an acceptable reason, the organiser will have the right to ask this country for compensation of the costs that have been incurred (hotel reservation, meals, etc).

1: 4 Age Categories :

The World Youth Championship is open to athletes (boys and girls) over 15 years old and less than 18 years old on the day of the weigh-in, the official start of the competition. **It is not possible to have an age derogation for this championship.**

1.5 Entry Rules :

1.5.1 **Registration fees** for the championship: 20 euros per athlete and per out-of-quota coach to be paid to FISav **before Friday 14th April 2023** (deadline for nominative inscriptions of the athletes). Late registrations may be refused, but if the organiser is able to accommodate additional people, a late registration fee of 30 euros for categories will be requested.

1.5.2 Each country can register **only one athlete** per weight category and gender.

1.5.3 Every athlete must be registered by their national organization, affiliated to FISav. Through this commitment, this organization certifies that it has verified, under its own responsibility, the age, the weight, and the **medical aptitude**, as well as the technical and sporting level of the athletes for this form of competition in assault.

1.5.4 The criteria of national selection are left to the national Savate organization of the participating countries.

1.5.5 **The athletes must be insured by their respective national organization against all possible damage that could occur on the occasion of this competition.** Athletes must be insured for any damage caused to third parties of any nature (physical / material / financial) by their respective national body. The respective national bodies will also have to cover the risk of illness or injury to their athletes and the repatriation of these athletes if necessary.

1.5.6 At the time of the registration, each country will designate, **among the coaches or officials, a head of delegation** who will be the spokesman for his country with FISav and the organiser. The head of delegation will have all power of decision over the athletes, coaches or officials of his delegation.

1.5.7 **A substitute**, of the same weight and age category, can be registered at the time of nominative inscription (before Friday 14th April 2023). They can take part in the competition according to the following conditions: **during the weigh-in, the start of the competition**, if the athlete officially designated by his country is **absent**, the substitute must be introduced by the head of delegation. As soon as the weigh-in and medical checks are completed, the substitute becomes the official athlete representing his country in his category. The athlete who was originally registered and is absent, is then definitively eliminated from this competition.

1.5.8 At the close of nominative registrations (Friday 14th April 2023), **if only one athlete** is entered in a weight class, **the title of that category will not be awarded.** The athlete will not be able to compete for the 2023 World Championship.

Reminder: Volume II - Rules of Procedure of FISav adopted by the general assembly of October 02, 2005 in Paris (France), modified by the general assembly of the FISav of Thursday 30 October 2014 in Rome (Italy)

Article 11 - § 2: International Competitors: License and Nationality

General principles:

- *In the course of a sports year, an international competitor must, in principle, only be licensed to the national organization of Savate, affiliated to FISav, of the country of which he is a national.*
- *In the course of a single sports year, the fact that a competitor is simultaneously licensed in different national bodies affiliated to FISav is not allowed without specific written agreement between the national groupings concerned which would issue these licenses, and prior agreement of the FISav.*
- ***The competitor must present an identity document (passport, identity card ...) attesting to the nationality represented during any participation in the official competitions of the FISav.***

Article 11 - & 2 A: Before 18 years:

In the case that a competitor has only one nationality,

- *The competitor participating in an official FISav competition may only represent the country of which he / she is a national. Provided that he is at the same time a member of the national body (affiliated to FISav) of which he is a national.*

In the event that a competitor has more than one nationality,

- *The competitor may represent only one country in an official FISav competition. The competitor represents the country of which he is a national and in which he is licensed without being able to represent another nationality until reaching 18 years.*

However, as an exception to the preceding provisions, an athlete may participate in an official FISav competition by being presented by a member country affiliated to FISav of which he / she is not a national, provided that the following two cumulative conditions are met:

- a) The athlete (under 18 years of age) must be permanently resident in the country of the affiliated member who has registered them for at least the 3 calendar years preceding the date of the competition. Such permanent residence must be attested by an official document issued by an authorized public authority.*
- b) There is no official structure affiliated to FISav in the country of which he is a national, or that country of which he is a national, explicitly accepts, and in writing, that he may represent the other country where he resides permanently and where he is actually licensed in Savate, if that country of residence accepts it.*

General principle (reminder),

The competitor cannot represent a country of which he is not a national.

In the event that a competitor has only one nationality,

The competitor participating in an official FISav competition may only represent the country of which he / she is a national. He/she is registered by the national organization, affiliated to the FISav, of which he/she has the nationality.

In the event that a competitor has more than one nationality,

After 18 years of age, the athlete, at the time of his first registration in an official international competition of the FISav, chooses a nationality of which he holds the passport, without being able to represent another nationality during his whole sports career in Savate.

Possibility of change of national representation,

However, as an exception to the previous provision, whilst having more than one nationality, and having already competed in an official international competition of the FISav for a nationality, the athlete may represent another nationality of which he has the passport:

- *The nationality he wishes to represent is the nationality of his country of birth, where there never existed an official structure affiliated to FISav. The use of this right by the athlete is irreversible.*
- *The territory in which he lives and practices Savate (is licenced) changes his nationality due to a constitutional modification (separation, annexation of the territory) recognized by the United Nations.*

- Each athlete is entitled to 3 weighings to correspond to his / her weight category within the time limit for weighing (FISav regulation).
- The weighing must be carried out in two separate areas, a room reserved for girls and a room reserved for boys. This obligation requires the organizer to have two weighing instruments.
- The General Official Delegate will ensure that the female weights are controlled by one or more female officials.

2.5 : Medical Check :

2.5.1 Prior to entry to any competition in assaut, preliminary medical examinations are compulsory for all participating athletes. These examinations are those prescribed by the FISav medical regulations. **These preliminary examinations are the responsibility of each Savate national organization, and are carried out in the country of the athlete, before his registration in the competition.**

The national organization which made the entries attests, under its sole responsibility:

- that it has verified that each athlete has **the medical capability** for this kind of competition in assaut and that he has undergone the medical examinations in his country, as required under FISav rules.
- that **each athlete is insured against any physical injuries** that could be caused during the competition. By registering an athlete, the participating federation or national organization accepts all responsibility in this matter.

2.5.3 If, before the start of the competition, according to national legislation, an obligatory medical control must be undertaken by a qualified doctor : The doctor, designated by the organiser, will decide on the medical ability of the athlete to take part. His decision, medically motivated, is sovereign and indisputable. It shall be communicated by him to the Official Delegate.

2.5.4 Doping Control applies to all athletes participating in FISav competitions. The anti-doping control can be done before, during or after competition, and also during training period. If an anti-doping control, in accordance with WADA rules, takes place, no athlete can exempt himself. In the case of a refusal, the athlete will be eliminated from the competition. The anti-doping control can take place before, during or after the competition.

2.6 : Progress of the competition

2.6.1 Prior checks

After the weigh-in and any medical check-up, the Official Delegate makes up the definitive list of the athletes, men and women, present in each category, from the entries sent from each country to the FISav. He may take into account substitute athletes.

If, after the weigh-in, an athlete does not fit in his registered category, the Official Delegate considers nonetheless if it is possible to include him, exceptionally, in the competition, for his sporting interest and for equity. The decision of the D.O. is sovereign and without appeal.

2.6.2 Rules of the competition:

- The pool system is used for the elimination heats. However, if a large number of athletes is registered in a particular category, the D.O. may decide on direct eliminations. In this case, he will inform the delegations that have entered this weight category.
- The rules used in Assaut are those of the Fédération Internationale de Savate (FISav) for competitions in Assaut.

2.6.3 Pool results, semi-finals and finals

The system of elimination by pools makes it possible to select the best athletes for each category. In the system of elimination by pools, the following scale is applied:

Victory	3 points
Defeat	1 point
Draw	2 points
Abandon, forfeit	0 point
Disqualification	- 1 points

In the case of a draw between two athletes **at the end of the pool**, the winner will be determined according to the following criteria:

- 2) The athlete having received the fewest warnings during his assauts.
- 3) The one who gained the most victories.
- 4) The lightest at the moment of the weigh-in.
- 5) Drawing lots.

In all cases, before an assaut, each athlete must first present himself to the official delegate of the ring before the start of the assaut (even if the athlete wants to declare forfeit for the assaut). If an athlete does not show for an assaut, the official delegate of the Fédération Internationale de Savate declares him as having retired from the championship.

No title can be awarded to an athlete who has not fought at least one effective bout against another competitor during the championship.

2.7 : Palette (CDI du 11 Juin 2007, resolution n°10) :

For this Championship, the Delegate Official General will decide before the competition to use, or not, judgment by pallets. Training of the officials present at the venue of the competition must be made before the opening of the Championship.

2.8 : Contesting a decision

(Management Board (CDI) of FISav, December, 14th, 2003, 16th resolution)

If a decision is contested, only the **Head of delegation** has the right to deposit a **written complaint, using the specific FISav form**. However, this principle must comply with the following precise rules:

- The head of the delegation, who deposits the complaint, should not have been one of the officials (judge or referee) of the combat where the decision is being contested.
- The complaint must be justified and lodged with the official delegate not more than 30 minutes after the announcement of the contested decision.
- For the complaint to be acceptable, and then to be assessed, it must relate only to facts of non-respect of the competition rules, and must not be about an evaluation of an athlete made by the officials.

A committee composed of the general official delegate (D.O.G.), and ring delegates will make a decision on the complaint in such a time so as not to impede the timing and running of the competition. The decision is final, and cannot be contested. In the event of equality, the opinion the D.O.G. is decisive and overruling.

2.9 : Decisions

The winner of the final of each weight and gender category will be declared the gold medallist and **2023** under 18 world champion in the weight and gender category.

The loser of the final of each weight and gender category will be declared Silver medallist and vice-champion of the world under 18 years old **2023** in the category of weight and sex concerned.

The losers of the semi-finals will be awarded the title of: Bronze medallist of the World Championship - Under 18s - **2023** in the weight and gender category concerned.

2.10 : Unforeseen Situations

In case of a disagreement about a situation for which no provision was made explicitly in the present rules, an interpretation committee rules on it. The decision of this committee is final. This interpretation committee is composed of at least 3 different countries. It is composed of the DOG (délégué officiel general), of the ring official delegates, and 2 persons designated by the DOG, among the members of the delegations present. In case of divided opinions, the DOG has the final decision.

The DOG informs the president of FISav about the decision taken on the subject of the situation not foreseen in the rules.

3.2: Costs borne by the Participating Countries

3.3: Costs borne by the Fédération Internationale de Savate

After the final registration of the officials (nominative), depending on the number of officials registered and the number necessary required at the event, FISav reserves the right to refuse some officials to limit the cost to the organizer. They will be informed by FISav in May. **However, those affected may participate (e.g. for international experience) at their own expense.**

A country may ask another country to provide the obligatory officials (decision of the FISav Management Board, 14th December 2003). **In the case where a country is unable to provide the compulsory number of officials required** according to the scale above, it must inform FISav when registering its delegation. If a solution cannot be found, FISav reserves the right to reduce the number of registered athletes according to the number of officials presented.

The participating countries pay the travel costs (round-trip) of the athletes, the coaches and the officials designated by their national organization of Savate.

3.2.3 : **Costs of accommodation and meals of the athletes, coaches and additional officials**

For the World Youth Championship 2023, the financial contribution to the costs of accommodation and food requested for the athletes and the support team (coaches) who wish to benefit from the organization provided by the organizer for accommodation and food is:

3.2.4 The head of the delegation

A head of delegation is designated by the national organization of Savate, affiliated to FISav, from among the principal coaches or the officials. There is only one head of delegation per participating delegation. He is the spokesman for his country for discussions with FISav (Official Delegate) and the Organizer. If the head of delegation is neither a trainer nor an official, he is not part of the official delegation AND WILL NOT BE SUPPORTED by the organizer for accommodation or catering.

The head of delegation must contact the organizer in writing (email, letter) **at the latest 2 weeks before the start of the competition**, to inform him of the mode of transport used by his delegation, the place of arrival (airport, station...) the date and the time of arrival. After this date, the organiser is no longer obliged to welcome the delegation concerned, who will have to arrive at the place of the competition by their own means.

Where the organiser has difficulties in paying the sums owed by a delegation for a claim due to degradation; in order to free the organiser of the sums owing for the reclamation, the FISav can pay the debt owed and reserve the right to consider the debt of the delegation as its own, thus the incriminated delegation will have to repay the debt to the FISav.

Behaviour harmful to the image of Savate, and / or deliberate damage by members of a federation, may lead FISav to hold a disciplinary commission against the representative of the federation concerned.
